## Assurance Services

In today's complex economic environment, investors, owners and shareholders expect predictive, precise, objective data that is easily interpreted and insightful for business improvement. Additionally, strong corporate governance practices must be coupled with financial reporting for company security.

Rest assured that Mountjoy Chilton Medley LLP is committed to providing your company with the highest quality service. Our registration with the Public Company Accounting Oversight Board (PCAOB) holds us accountable to strict adherence to all professional standards, regulations and laws, giving our public and private company clients peace of mind regarding their financial reporting.

We use a proven, consistent approach that employs a risk-based perspective and is based on an understanding and analysis of key external and internal factors influencing management. Our team is comprised of auditors specializing in specific industry sectors, resulting in a deep knowledge base. Members of our Assurance leadership serve on the Baker Tilly Accounting and Auditing Committee, FASB Small Business Advisory Committee and AICPA Committee, keeping us engaged in review and discussion of new developments in the standards that affect our clients.

Control is a good thing. Let us help you establish more of it in your company's practices, reporting and management.
