

## Government Services

In spite of mounting financial pressures, adoption of GASB pronouncements and overall increases in operating costs, government agencies face expectations of higher levels of service. At Mountjoy Chilton Medley LLP, we offer a team of professionals with extensive experience in providing services to governmental agencies and their governing bodies and helping them address these challenges.

Our Government Services Team members stay on top of the rapidly changing government regulations and standards by actively participating in governmental organizations and receiving specialized training.

We've performed numerous audits in compliance with Government Auditing Standards and the Single Audit Act for Kentucky local governments, as well as state agencies, helping them remain in good-standing with even the most obscure federal and state regulations.

Let MCM help your municipality, local and state agency, quasi-governmental not-for-profit or educational institution meet your fiduciary responsibilities so that you can focus on serving your constituency.
